

# Pfizer Independent Medical Education **Grant Request for Proposals**

Competitive Grant Program – Pfizer Internal Review Process

Collaborative Community Oncology Support for Therapy Management in Relapsed/Refractory Multiple Myeloma (RRMM)

### **Overview**

This competitive grant program intends to provide an independent education grant to support to the formation of a new national or regional collaborative initiative which will guide, support, advise and discuss treatment management of RRMM patients receiving subcutaneous (sc) B-cell Maturation Antigen (BCMA) Bi-Specific Antibodies (BsAbs) outside of academic and university cancer setting, including education on outpatient step up dosing.

## Geographic Scope

Spain, United Kingdom, Italy and Japan only

## **Project Types and Area of Interest**

The landscape of treatment in RRMM is rapidly evolving. This RFP intends to support an organization interested in collaborating with other external organizations in the implementation of a new education initiative that will guide, teach, and facilitate support for community/district general hospitals, hematologists, oncologists and other healthcare professionals caring for RRMM patients receiving subcutaneous (sc) BCMA BsAbs.

## **Key Milestones**

**Submission Deadline** 

**Anticipated Grant Award Notification**  **Anticipated Project Start Date/Duration** 

07 OCT 2025

**DEC 2025** 

**JAN 2026** 

## **Funding Range and Project Length**

Individual projects requesting up to \$150,000 USD total will be considered. Maximum project length is 24 months.

## I. Eligibility

Geographic Scope/Location of Project:

Spain, United Kingdom, Italy and Japan only

### Applicant Eligibility Criteria

- The following lead applicants may apply: medical, nursing, allied health, and/or pharmacy professional schools; healthcare institutions (both large and small); professional organizations/medical societies; medical education companies; and other entities with a mission related to healthcare professional education and/or healthcare improvement.
- Only organizations are eligible to receive grants, not individuals or medical practice groups (i.e., an independent group of physicians not affiliated with a hospital, academic institution, or professional society).
- If the project involves multiple departments within an institution and/or between different institutions / organizations / associations, all institutions must have a relevant role, and the requesting organization must have a key role in the project.
- The requesting organization must be legally able to receive award funding directly from Pfizer Inc. We strongly recommend that applicants confirm this with their organization or institution prior to submitting an application. Grants awarded to organizations that are subsequently found to be unable to accept funding directly from Pfizer Inc. may be subject to rescission.

## II. Requirements

### Primary Area of Interest:

Oncology – Hematology – Multiple Myeloma

#### General Area of Interest for this RFP:

It is not our intent to support clinical research projects. Projects evaluating the efficacy of therapeutic or diagnostic agents will not be considered.

Potential applicants are encouraged to identify and address educational needs in one or more of the following areas:

- Support for initiation of care in community centers/local clinics/district general hospitals
- Guidance on the patient transition to the community setting if treatment is initiated in an Academic Cancer Center
- Guidance for outpatient step up dosing (except Japan)
- Forum for best practices related to therapy management (e.g. Cytokine Release Syndrome, Immune Effector Cell-Associated Neurotoxicity Syndrome, infections)

The initiative should be multi-faceted and may include education elements for all staff involved in the care of patients receiving subcutaneous BCMA BsAbs such as meeting, calls and/or guides on treatment initiation, communication forum, on-call hours to resolve questions, and forum to present cases and best practices. Resources and tools might include implementation and discharge checklists, practice-guidance infographics, and informative education to provide to patients and caregivers. These are examples only and the applicant organizations are encouraged to include new creative ideas.

The proposal may include multiple organizations collaborating together. For example, a collaborative proposal may include one ore more of the following:

- Academic Cancer Center with experts in sc BCMA BsAbs
- Professional Medical Society with wide reach to hematologist or hemato/oncologists caring for patients with RRMM
- Medical Education company with strong logistical experience in conducting a national or regional education program
- Patient Advocacy Organization to ensure all initiatives reflect the voice and needs fo patients for countries that allow these organizations to participate (except Italy).

### **Target Audience**

 Hematologists and/or oncologists and other healthcare professionals responsible for the care and treatment of patients with RRMM.

### **Expected Approximate Monetary Range of Grant Applications**

- Individual projects requesting up to \$150,000 USD will be considered. The estimated total available budget related to this RFP is \$600,000 USD.
- Award amounts include direct costs, institutional overhead costs (capped at 28% per Pfizer policy), and indirect costs.

**IMPORTANT:** Be advised applications submitted after the due date will not be reviewed.

\*Please note the deadline is 23:59 Eastern Standard Time (e.g., New York, GMT -5)

#### How to Submit:

**IMPORTANT:** Please read this section carefully since applications submitted not following these instructions will not be accepted and will be cancelled.

- Please go to www.cybergrants.com/pfizer/knowledge and sign in.
- Note: there are individual portals for each grant application type. Please be sure to use the URL above.
- First-time users should click "Create your password".
- Click the "Start A New Independent Medical Education/Knowledge Gap Application" button.
- Requirements for submission:
  - Complete all required sections of the online application

- IMPORTANT: Upload proposal (see Appendix) in the General RFP Submission field.
- In the application:
  - For the question "Competitive Grant?" select "Yes"
  - Select the following Primary Area of Interest: Oncology Hematology Multiple Myeloma
  - Select the following Competitive Grant Program Name: 2025 ONC G Community Support in RRMM IDM IME

#### Questions:

- If you encounter any technical difficulties with the website, please click <a href="here">here</a> or the "Technical Questions" link at the bottom of the page in Cybergrants.
- Please click <u>here</u> to view "Frequently Asked Questions" regarding the Competitive Grant Program.
- If you have questions regarding this RFP, please direct them in writing to the Grant Officer, Don Rodriguez (<a href="mailto:Don.Rodriguez@pfizer.com">Don.Rodriguez@pfizer.com</a>), with the subject line "2025 ONC G Community Support in RRMM IDM IME"

### **Review and Approval Process**

• Grant requests received in response to a general RFP are reviewed by Pfizer to make final grant decisions.

### Mechanism by which Applicants will be Notified:

- All applicants will be notified via email by the dates noted above.
- Applicants may be asked for additional clarification during the review period.

### **Grant Agreements:**

- If your grant is approved, your institution will be required to enter into a written grant agreement with Pfizer. Please click here to view the core terms of the agreement.
- Under Pfizer's competitive grant program, modifications to grant agreements will not be reviewed unless
  a genuine conflict exists as between applicable law and the terms of the relevant grant
  agreement. Applicant is encouraged to share the core terms with counsel for approval prior to
  submitting an application.
- Except where prohibited by applicable law and, in any case, subject to review by Pfizer Legal, payment of grant funding may only be paid to the grantee organization.
- This RFP is supported by Pfizer Inc. and, if approved, the payment will be issued by a Pfizer US based legal entity.

#### **About Pfizer Grants**

Pfizer supports the global healthcare community's independent initiatives (e.g., research, quality improvement or education) to improve patient outcomes in areas of unmet medical need that are aligned with Pfizer's medical and/or scientific strategies.

Pfizer's competitive grant program involves a publicly posted general Request for Proposal (RFP) that provides details regarding a general area of interest, sets timelines for review and approval, and uses an internal Pfizer review process to make final grant decisions. Organizations are invited to submit an application addressing the knowledge gaps as outlined in the specific RFP.

For all independent medical education grants, the grant requester (and ultimately the grantee) is responsible for the design, implementation, and conduct of the independent initiative supported by the grant. Pfizer must not be involved in any aspect of project development, nor the conduct of the independent education program.

## **Appendix**

### **IMPORTANT: RFP Submission Requirements**

Applications will be accepted via the online portal listed in the How to Submit section. Project Proposals should be single-spaced using Calibri 12-point font and 1-inch margins. Note there is a 15-page limit exclusive of references. When uploading your Project Proposal please ensure it addresses the following sections:

## Goals and Objectives

- Briefly state the overall goal of the project.
- List the objectives you plan to meet with your project, in terms of learning and expected outcomes.

### Assessment of Need for the Project

• Include a description of your organization's needs assessment for this proposed project which may include a quantitative baseline data summary, initial metrics, or a project starting point (please cite data on gap analyses or relevant patient-level data that informs the stated objectives) in your target area.

### **Target Audience**

• Describe the primary audience(s) targeted for this project. Indicate whom you believe will directly benefit from the project's outcomes. Describe the overall population size as well as the size of your sample population.

#### Project Design and Methods

• Describe the planned project, the educational approach, and the way the planned methods address the established need.

#### Innovation

Explain what measures you have taken to ensure that this project is original and does not duplicate other
projects or materials already developed. Describe how this project builds upon existing work, pilot
projects, or ongoing projects developed either by your institution or other institutions.

#### **Evaluation and Outcomes**

- In terms of the metrics used for the needs assessment, describe how your organization will determine if the gap was addressed for the target group. Identify the sources of data your organization anticipates using to make the determination. Describe how your organization is expected to collect and analyze the data.
- Explain the method used to control for other factors outside this project (e.g., use of a control group or comparison with baseline data). Quantify the amount of change expected from this project in terms of the target audience. Describe how your organization will determine if the target audience was fully engaged in the project.

#### Dissemination Plan

Describe how the project may have extended benefit beyond the grant. Will the teaching materials be
made available to others to use? Will there be tools or resources that are made publicly available
beyond the initial project? Describe how the project outcomes might be broadly disseminated.

#### **Anticipated Project Timeline**

Provide an anticipated timeline for your project including project start/end dates.

#### Additional Information

• If there is any additional information you feel Pfizer should be aware of concerning the importance of this project, please summarize here.

#### Organization Detail

Describe the attributes of the institutions / organizations / associations that will support and facilitate the
execution of the project and the leadership of the proposed project. Articulate the specific role of each
partner in the proposed project.

#### **Budget Detail**

- Please include a budget narrative that describes in greater detail the line items specified in the budget submitted within the application.
- While estimating your budget please keep the following items in mind:
- Independent Medical Education Grants awarded by ER&G cannot be used to purchase therapeutic assets (prescription or non-prescription).
- Overhead rates of up to 28% of the total proposed project budget may be supported by Pfizer. Please click here for details. General organizational running costs such as legal fees, insurance, heating and lighting etc. should be included in an Institutional Overhead (if required). These costs are not specific to a grant request and therefore should not appear as line items in budgets. However, costs that are specific to the study (e.g., some countries require insurance to be taken out on a per-study basis for clinical research) would be acceptable to be included as line items.
